

Dinosaur Planet

Find and name continents and oceans on a world map

Compare and contrast the environment of Billingham with a dinosaurs habitat, e.g. rainforest

English

Harry and his bucketful of dinosaur stories.

Introduce fictional palaeontologist Archie Woods. He sends the children letters and asks them to complete tasks.

Make observations

Identify similarities/differences in dinosaurs

Begin to understand time periods

Begin to understand changes over time

D&T

Create a dinosaur with moving part, using split pins

Mary Anning

Local people

Maths

From observations, present results in a Carroll diagram

Non standard measuring lengths of a selection of dinosaurs

Vocabulary

The seven continents

The five oceans

A selection of dinosaur names

Jurrasic

Triassic

Palaeontologist

Herbivore, carnivore, omnivore

Archaeologist

How to tell what type of diet a dinosaur might eat

Make observations about similarities and difference of the types of jaws/teeth, etc to determine herbivore, carnivore, omnivore

What do the terms endangered and extinct mean?

Look at the dodo bird and endangered animals that children may recognise from their own experiences, e.g. tiger

What might be the cause?

Basic needs, consider their habitat.
